

INDEX OF AUTHORS' NAMES.

ABSTRACTS. 1892.

And also to Transactions, 1892 (marked TRANS.); and to such papers as appeared in the Proceedings during the Session 1891—1892 (Nos. 101 to 114; Nov., 1891, to July, 1892), but not in Transactions (marked Proc.).

A.

- Abbona, V. See Fileti.
 Abbott, A. C. See Voit.
 Abel, J. J., and E. Drechsel, carbamic acid, 518.
 Abelous, J. E., and F. Heim, digestive ferments in crustacean eggs, 362.
 Abenius, P. W., and H. G. Söderbaum, diphenyltetraketone, 69.
 Abney, colour-photometry, Proc., 1891, 150.
 Abrahall, J. I. H., obituary notice of, TRANS., 486.
 — the atomic weight of boron, TRANS., 650.
 Ackermann, estimation of tartar in sweet wines, 1531.
 Adams, F. D., melilite-bearing rock from Canada, 1058.
 Adams, M. A., estimation of oxygen dissolved in water, TRANS., 310.
 Addyman, F. T., action of sulphuric acid on the bromides of potassium, sodium, and hydrogen, TRANS., 94.
 Adeney, W. E., and T. A. Shegog, combination of wet and dry methods in chemical analysis, 100.
 Adkins, H., relations between atomic weights, 938.
 Adrian and Bougarel, separation of barium from strontium salts, 776.
 Ahrens, C., derivatives of metaxylene, 1437.
 Aisinmann, S. See Wildermann.
 Albert-Lévy, ammonia in rain water, 381.
 Aldringen, F., thiocoumarin and its analogues, 329.
 Alexander, H., action of formaldehyde on orthodimethylteluidine, 1320.
 Alexander, H., reduction of coumarone, 1318.
 Alexéeff, W., elaterite and dopplerite, 689.
 Aillard. See Leze.
 Allen, A. H., assay of aconite preparations, 392.
 Allen, A. H., and W. Chattaway, examination of spirits for secondary constituents, 244.
 Allendorff, O., oximes of opianic and phthaldehydic acids, 180.
 Altschul, J., parahydroxyalkyl derivatives of phenylhydrazine, 1198.
 — paralkyloxy-derivatives of phenylhydrazine, hydracetine, and antipyrine, 1080.
 Alvisi, U., formation of pyrazole derivatives from the dichlorhydrins and tribromhydrins, 884.
 — the camphor group, 1343.
 Amagat, E. H., density of liquefied gases and their saturated vapours: critical constants of carbonic anhydride, 1043.
 — determination of the density of liquefied gases and of their saturated vapours, 934.
 — new isothermal curves for carbonic anhydride, 3.
 Anthor, C., and J. Zink, horse fat, 1533.
 André, G., bismuthic acid, 413, 688.
 André, G. See also Berthelot.
 Andréeff, A. See Andres.
 Andreocci, A., synthesis of 1:3-phenylpyrrodiazolecarboxylic acid, 3-methylpyrrodiazole, 3-pyrrodiazolecarboxylic acid, and pyrrodiazole, 636.
 Andres, G., and A. Andréeff, Russian peppermint oil and menthylamine, 723.
